

ACOUSTIC DESK DIVIDERS

WORK QUIETLY. THINK CLEARLY

Design that silences the noise & creates quiet workspaces with focused minds.

Our desk dividers are proof that privacy and openness can happily coexist. Sleek, durable, and acoustically effective, they absorb chatter and soften visual distractions, helping people focus without shutting them off completely. Designed to blend into modern workstations, they improve both performance and comfort, turning a busy workspace into a balanced one.

Basically, your desk gets its own set of noise-canceling headphones.

Features

Panel Sizes

Available in standard 4'x8' or 4'x9' panels for versatile ceiling layouts.

Thickness Options

Available in 9.5mm, 12mm, 18mm, and 24mm to suit diverse acoustic and design needs.

Easy Assembly

Slots together in seconds: no tools, adhesives, or fixings required.

Sustainable Material

Crafted from 60% recycled PET felt for an eco-friendly acoustic solution.

Custom Sizes & Shapes

Tailored dimensions and forms available to match any space or design intent.

Safe Composition

Contains no formaldehyde binders and is 100% VOC-free for healthier interiors.

Pinnable Surface

Doubles as a functional board for pinning notes, photos, or samples.

Fire Rating

Complies with fire safety standards.
